At Trillium Pet Care we believe proper grooming is essential to a healthy pet. We offer state-of-the-art salon facilities and professional groomers to pamper your pet. All of our spa services are available by appointment, or can be scheduled with a boarding visit. In addition to weekdays, we offer evening and weekend appointments to accommodate your busy lifestyle. Our groomers have years of experience and annually participate in pet related continuing education. At Trillium we are dedicated to providing the best care for your best friend!

Services by appointment only or during your pet's boarding visit. All cart items may be completed while you wait.

Intervals between grooms are based on the style of the pet and the amount of brushing and combing the pet owner performs. Long haired pets and those with shedding issues will do best on a 4-6 week schedule. Short coats can usually get by on a 6-8 week schedule. We recommend that pets groomed on the longer intervals have at least one nail trim or nail grind between grooms.

Duration of most grooms is 1 to 3 hours. Logically, long coated pets and those with full body trims will take 2-3 hours. Short coated pets and those with no major clipping or brushing will be finished in 1-2 hours. We give most pets

the opportunity to lay down and rest mid way through the grooming process. Clients are welcome to have a seat in our waiting area or we can phone your cell phone when the job is complete. For your convenience, you may also drop off in the morning and pick up during the boarding kennel's evening lobby hours - there is no extra fee for this daycare service with a groom. Pets are given the opportunity to relieve themselves before their groom begins and again when it is finished. Drinking water is offered to all pets when their groom is complete.

Carding or de-shedding is one of our most popular grooming services here at Trillium Pet Care. Carding performed every 4 to 6 weeks on a regular schedule will reduce your pet's shedding by 60-80%. Carding is performed using specialized industry tools in a graduated series to strip and remove the undercoat of double coated dogs and cats. The process stimulates the skin and may cause some excess shedding the first 24 hours; after which the results are amazing!

Nail Grinding is the use of a rotary filing tool to shorten and round the tips of the toenails of dogs. This is a popular nail care method often used on professional show dogs. It is especially nice for pet owners with hard wood floors as well as those with children or elderly household members. Soft claw nail caps are available for cat owners.

\*Flea shampoos are mandatory if present on any pet entering our facility. An additional fee for flea treatment will be added to the pet's invoice. We also retail Frontline Plus to prevent fleas at home.

Puppies and kittens under 16 weeks of age receive their first groom for free! We at Trillium know that a puppy or kitty's first experience at the groomers should be enjoyable! We'll take our time and offer lots of praise and encouragement to your little baby. **FREE GROOM**

#### REQUIRED VACCINATIONS

Dogs: Rabies	Cats: Rabies
DHLPP	RCPC
Bordetella	Leukemia

Proof of vaccinations is mandatory. Vaccines should be brought current two weeks before your pet's visit for optimum protection.

Overnight lodging is available in our heated and air conditioned boarding facility. We have a separate Kennel and Cattery. Trillium also boasts outdoor play areas, nature walks, holiday meals and more. Visit our web site or follow us on Facebook. Pre-care tours are welcome.
